

The Apron Strings

News from M.O.M.S.

Summer Review 2026

Summer Summary

From June to September, M.O.M.S. gave out 21,833 lbs of food to those in our community who are in need of nutrition assistance. The vast majority of food went to families with children. M.O.M.S. saw a significant increase in the number of new families with children during the summer months. There were 13 new families with a combined total of 38 children that received food assistance during this unusually long, hot summer. We expect to see further increases in this area of need.

Ouch! Utility Bills!

This summer was difficult for M.O.M.S. due to the extremely high utility bills to keep the building cool for food storage and for the comfort of our clients and volunteers alike. Although we want all of our donations to go towards food, we do need our utilities in order to function. Please consider offering a special donation to help us pay our cooling costs. For many of our clients, this may be the only comfortable place they are in this long seemingly unending heat wave.

Private Tours!

Come see what's different about MOMS!

Every gift matters.
Every donation makes a difference.

Donor Spotlight!

M.O.M.S. received an unsolicited grant from Osteopathic Founders Foundation (OFF) to pay for milk and eggs for the entire year to our families who come to us for assistance. We were so excited to receive this grant as milk and eggs can be a huge burden on our food budget, and we know these items are much needed by our families. M.O.M.S. issues a milk voucher once a month to each family. The voucher is good for one gallon of milk from the Collinsville Harps Food Store and includes non-dairy milk for those with allergies. Eggs are bought by M.O.M.S. and stocked in our refrigerator until distribution days. If it were not for OFF providing the funds to purchase these essential items, M.O.M.S. might have to limit the number of other food items to make up the cost of milk and eggs. But thanks to them, we do not have to go that route. Thank you, Osteopathic Founders Foundation!

The Heart Strings

One demographic that M.O.M.S. serves is those who are burdened with ongoing health problems which limit their ability to work. Some of our clients are dealing with autoimmune diseases that make it nearly impossible for them to work long hours and who may have children to care for as well. Some of our clients are dealing with major health concerns such as awaiting a liver transplant, living with a severe heart condition, or going through cancer treatments. All of these clients want to work and provide for their families, but their significant health needs are preventing that from happening. Let us remember that being sick can be a significant issue for some families and being able to provide food to them is a huge burden lifter for these beautiful people.

Thank you

Pray for the Sick

"Matthew 11:28: 'Come to me, all you who are weary and burdened, and I will give you rest.' (Matthew 11:28)"

Please pray for all who visit M.O.M.S. each month who are dealing with health issues. They can be very worried about having food not only for themselves, but for their families who they may support. Consider praying for our clients with health issues that they may be healed. Additionally, you can help us support their well-being by donating generously so that we can provide healthy food choices that may help in their recovery. May the Lord bless the sick who are in need of food assistance, and bless you as well!
